Ladies and Lord, Ambassador!

I ask for your help in the name of Aierken Yilisen. He is a 24-year-old Kazakh refugees from Xinjiang, he is currently stuck in Ukraine. Last year he was arrested, he was held in the local immigration prison and threatened to bring back to China. [1]

The China Aid, the Safeguard Defenders, the local Ukrainian help and many others regained its freedom on 27 October. [2]

Unfortunately, however, today the Ucanne Immigration Office has rejected its asylum issue, so it has not yet been able to reach a safe country. As he says, "After doubt, I gave up the idea of freedom of liberty. From now on I will only count the days after day. Thank you for this year." [3]

The Chinese Communist Party (accidentally) is pursuing genocide in Xinjiang against Uyghurs and other ethnic, such as Kazakh minorities. The terrible human rights abuses in Xinjiang are widely recognised by the international community, including the United States, Canada, the United Kingdom and the European Union, which is a member of the country.

In view of the above, I call on your help to find, as far as possible, a right to asylum in Hungary. Please inform me what you can do to obtain refugee status in order to obtain refugee status.

Welcome,
Chomula

[3] Today, the Immigration Office has rejected my asylum issue. I could not get refugee status, I could not get to a safe country. I was in a dilemma. I realized at last. I have given up the idea of freedom of liberty. I count on the day after the next day. Thank you for this year. Support and assistance.
